October 4, 2013**

Reconvene:

Dr. Dhakar moved that the Committee certify that it heard, discussed or considered only public business matters lawfully exempted from open meeting requirements under the Virginia Freedom of Information Act and only such public business matters as were identified in the motion by which the closed meeting was convened. The motion was seconded and passed.

DECISION:

Case No.: 143562

Ms. Toliver reported that the Committee found that Dr. Kim submitted claims to Patient A's insurance carrier for services performed from April 4, 2011 through July 28, 2011, despite the fact that Patient A paid for these services at each dental visit. Dr. Kim collected payment from Patient A's insurance carrier in the amount of \$1,970.00 for these services and the payment was not refunded to Patient A until July 16, 2012.

The Committee further found that on August 27, 2010, Dr. Kim placed implants at the site of Patient A's teeth #7, 8, 9, and 10 despite the fact that there was insufficient bone structure to support implants, as evidenced in a radiograph taken at his practice on August 9, 2010. Patient A lost the implants at tooth sites #7, 8, 9, and 10.

Dr. Kim placed a bridge on Patient A's teeth #7-11 on April 29, 2011 that was not properly seated and had open margins, as evidenced in radiographs taken on January 23, 2012 at another practice. The bridge was not properly supported because Dr. Kim used a natural tooth abutment and an implant supported abutment.

Dr. Kim failed to document that he informed Patient A of the option of removing the failed implant, grafting the implant site, or placing a new implant following the unsuccessful attempt for an implant at tooth site #9; failed to obtain a complete health history on Patient A's initial visit or any subsequent visit; failed to obtain an updated health history; and failed to document that he removed Patient A's failed implant at tooth site #9.

Dr. Kim gave Patient A the original radiographs at the time she requested a copy of her dental records and failed to maintain a copy for his record.

The sanctions reported by Ms. Toliver were that Dr. Kim shall be issued a reprimand and pay a \$5,000.00 monetary penalty. Dr. Kim's license shall be placed on probation subject to the terms and conditions that within one year from the date of entry of the Order he shall successfully complete 60 hours of continuing education in implant surgery, to include hands-on practice; 10 hours of

continuing education in implant prosthetics; and 7 hours of continuing education in recordkeeping and risk management.

Dr. Kim shall be prohibited from performing and/or completing any implant surgeries until he has successfully completed the 60 hours of continuing education in implant surgery.

Dr. Kim shall be prohibited from performing and/or completing any implant prosthetics until he has successfully completed the 10 hours of continuing education in implant prosthetics.

**DECISION:
Case No.: 144658**

Ms. Toliver reported that the Committee found that while providing treatment to Patient A on December 14, 2009, Dr. Morgan placed an implant at tooth site #30 too deep, as evidenced by radiographs taken on the same date at her practice.

The Committee further found that Dr. Morgan incorrectly seated Patient A's abutment at tooth site #30 when placing the implant at tooth site #30 on December 14, 2009, which left an open gap, as evidenced in radiographs taken by her practice on April 27, 2010.
